PRIVY COUNCIL

of the Privy Council, approved by His Excellency the Governor  
General on the 19th October, 1967.

The Committee of the Privy Council have had  
before them a report dated 16th October, 1967, from the  
Minister of Transport, representing:

That on October 1, 1966 Northern Canada Power  
Commission became the electrical utility for Dawson,  
Yukon Territory, assuming the services previously operated  
by Yukon Consolidated Gold Corporation. However the Depart-  
ment of Transport has continued to own and operate a certain  
power line extending from the Dawson system to two tele-  
communication stations of the Department of Transport, the  
length of such power line being approximately one mile;

That the said power line of the Department of  
Transport was constructed in 1946 at an original cost of  
\$9,800 and based on a twenty year depreciation, today's  
value of the line is nil. The line will have to be replaced  
in the near future at probably double the 1946 cost;

That the said line of the Department of Transport  
does not conform with the new distribution system recently  
installed by Northern Canada Power Commission at Dawson,  
thus making obligatory a revision to the line at an esti-  
mated cost of \$2,500. Retention of the line will make  
further revisions necessary at a further \$20,000;

That the Northern Canada Power Commission has  
agreed to accept a transfer of the line for a nominal con-  
sideration and to maintain and operate same; and

That Crown Assets Disposal Corporation has authorized  
the Department of Transport to dispose of the said power line  
to Northern Canada Power Commission for a nominal consideration.

- 2 -

The Committee, therefore, on the recommendation of the Minister of Transport, pursuant to the Surplus Crown Assets Act, advise that authority be granted to sell for a nominal consideration, the said power line, extending from the Dawson, Yukon Territory system to two telecommunication stations owned by the Department of Transport, the maintenance and operation of the power line being the responsibility of the purchaser.

\$250.72 Tax

\$128.69 Penalty

At the dissolution of the partnership this firm was assessed \$583.58 by an audit for the period December 18, 1963 to July 1, 1964.

Mr. Robert Charbonneau continued operations but by January 1966 was forced to declare Bankruptcy. A claim was filed with the Trustee but as this was a summary administration there was no dividend to any class of creditors. Mr. Charbonneau has since suffered a nervous breakdown and it is impossible to contact him on this matter. Mr. Leclair, the other partner, has attempted to reduce the debt, but due to his financial responsibilities he was able to make only small remittances which reduced the debt to \$577.64. Having a wife and four children to care for, on a salary of \$60.00 per week and with many other debts, he is in a poor financial position. His lawyer, Mr. Pierre Duford, has offered a sum of \$250.00 in full settlement of the account.

Further hardship would result if full payment is demanded from Mr. Leclair. It is therefore recommended that remission be granted for sales tax of \$250.72 and penalty of \$128.69

Marcel Arvisais,  
Hull, P. Q.

\$303.00 Tax

\$469.14 Penalty

An audit of the records of the above manufacturer of ornamental iron products for the period January 1, 1961 to February 28, 1964 resulted in an assessment of \$1,303.00. The bulk of the assessment represented excessive discounts for installation expenses. Although installation costs were shown on each invoice, sufficient records were not maintained to substantiate the discounts. A percentage discount in lieu of installation expenses was, therefore, allowed for the audit period. The licensee maintained he had received verbal approval of the procedure used, from a member of the Department but this could not be verified.

An amount of \$1,000.00 has been tendered as in full settlement. Representations have been made to the effect that the major portion of the assessment could possibly have been avoided had the audit been conducted within the normal two year period. In view of the circumstances, it is recommended that the proposed payment be accepted and remission granted of the tax balance of \$303.00 and accrued penalty of \$469.14.

Kool Ray Ltd.,  
St. Leonard, Quebec.

\$2,112.39 Tax

\$339.24 Penalty

An audit of this firm's books for the period July 1, 1963 to June 30, 1966, resulted in an assessment of \$3,920.11.

The bulk of the assessment accrued due to a general misunderstanding of the proper method to be used in tax calculation. The firm had computed sales tax on the net price rather than at 11/111ths of the actual selling price. The licensee assumed that the method used to calculate the sales tax was correct as the audit assessment set up previously did not pinpoint these errors. It is also shown that conditions during the current audit period were similar to those existing during the preceding audit period.

The assessment has created financial difficulties for the firm but they have paid \$1,807.72 on the assessment together with applicable penalty of \$385.25.

Having consideration for the fact that errors were made due to a misunderstanding and that there was no intention of evading payment of sales tax, remission of tax in the amount of \$2,112.39 and penalty of \$339.24 is requested.

Matelas Supreme Mattress Inc.,  
St. Narcisse, P. Q.

\$458.40 Tax

\$210.87 Penalty

This mattress manufacturer was assessed \$9,180.70 for the period February 1, 1960 to September 30, 1964, as a result of their failure to comply with the requirements of Circular ET 81. In view of the direct loss which would have been sustained by the firm had full payment been insisted upon, a compromise settlement of \$4,500.00 was accepted and remission of the balance granted by Order-in-Council. A further audit has been conducted and an amount of \$958.40 established for the month of October, 1964. Representations have been made to the effect that had the previous audit period been extended, the amount owing for the month of October would have come to light and would have been included in the first submission to Council. The company has, therefore, tendered \$500.00 as in full settlement. In view of the circumstances, it is recommended that this proposal be accepted and that remission be granted of the tax balance of \$458.40 and accrued penalty of \$210.87.

Moncton, New Brunswick, September 18, 1967, on file in the  
Real Estate Branch of the Department of Transport, to Dr.  
Jan V. Weinberger for the sum of \$200;

That the said parcel of land is no longer required  
for Railway purposes and Dr. Weinberger is the only adjacent  
owner interested in acquiring it;

That there is a flow of water through a ditch  
adjoining this parcel which makes this property soggy and  
wet and it is estimated that the cost of clearing the ditch  
would run in the neighbourhood of \$600 and which expense  
could be a recurring one;

That the Management of the Canadian National Rail-  
ways has also recommended that a water pipeline easement that  
was acquired in 1901 on the property now owned by Dr.  
Weinberger be cancelled as the said easement is no longer  
required for railway purposes;

That the General Manager of the Real Estate Branch  
of the Department of Transport concurs in the recommendation  
of the Railways that this holding be sold to Dr. Weinberger  
for the sum of \$200.

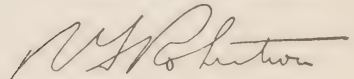

- 2 -

The Committee, therefore, on the recommendation of the Minister of Transport, advise that Your Excellency may be pleased,

- (1) pursuant to the Canadian National Railways Act, to withdraw from entrustment to the Canadian National Railways a parcel of Railway land being part of the Old Reservoir Site at Londonderry, Nova Scotia, as described above; and
- (2) pursuant to the Public Lands Grants Act,
  - (i) to authorize the conveyance by Quitclaim Letters Patent to Dr. Jan V. Weinberger all the right, title and interest of Her Majesty in right of Canada in the aforesaid parcel of land containing 2.1 acres situate in the County of Colchester, Nova Scotia; and
  - (ii) to authorize the conveyance by Quitclaim Letters Patent, to Dr. Jan V. Weinberger all the right, title and interest of Her Majesty in right of Canada under a certain Deed of Easement dated November 5, 1901 granting to His Late Majesty in right of Canada the right to lay and maintain a water pipeline on the lands owned by Dr. Jan V. Weinberger,

in consideration of the price and sum of \$200.

Nordmende Quebec Ltee.,

\$7,436.21 Tax

\$9,133.56 Penalty

The proposed remission is of the outstanding balance of an audit assessment of \$30,436.21, covering the period October 1, 1965, to December 31, 1966, which arose because the Department had deemed Nordmende to be a manufacturer.

Nordmende had electronic components enclosed in cabinets by the Tudor Rose Fine Furniture Co. Ltd.. Tudor accounted for sales tax on its selling price of the cabinets to Nordmende. Nordmende considered Tudor to be the manufacturer, and sales tax was not charged on subsequent sale by Nordmende. Nordmende bitterly disputed the Department's decision to hold it responsible for the tax as a manufacturer.

The company made a payment of \$3,000.00 in June, 1967, and has subsequently raised and paid \$20,000.00 as an offer of settlement of the indebtedness which amounts to \$36,569.77, including statutory penalty. Attempt to insist on payment of the full amount could cause bankruptcy as the company has been operating at a deficit and appears unable to sustain a loss of this nature and remain in business. Manufacturing ceased immediately the assessment was established, the license has been cancelled, and the company has become merely a jobber of goods. It is therefore considered advisable that the \$20,000.00 be retained and the remainder of tax and penalty remitted.

\$10,822.09 Tax

\$6,399.35 Penalty

The subject company succeeded Nu-Way Pak Co., on September 3, 1954. Mr. Joseph Paiement was sole owner of the latter and president of the former. Both companies were considered to be manufacturers of garbage collection vans, although the physical fabrication was done by others. Sales were made primarily to municipalities.

The final audit of Nu-Way Pak Co., and the initial audit of Nu-Way Pak Co. Ltd., established arrears of \$2,477.18 and \$1,227.27 respectively. Mr. Paiement strongly contested these assessments, contending that vans sold to municipalities are exempt under Schedule III of the Excise Tax Act. The Department did not concur in this interpretation.

Strong representations on Mr. Paiement's behalf were made by his legal counsel over a period of several years during which time tax arrears continued to build up. However, before the case was brought to a conclusion, Mr. Paiement's lawyer became ill, and, rather than continue fighting the case in court, Mr. Paiement confessed judgment for \$3,000.00. This amount has now been paid, leaving an outstanding balance of \$10,822.09 sales tax and \$6,399.35 statutory penalty.

Mr. Paiement is now an old man in failing health and the limited liability company has no assets. The amount of \$3,000.00 was raised in the hope that it would be accepted as payment in full of the account. The company has ceased operations, and, under the circumstances, it is felt that the outstanding tax and penalty should be remitted and such is recommended.

Les Industries Mont-Blanc Ltée.,  
L'Assomption, P.Q.

\$3,369.33 Tax

\$805.48 Penalty

This firm, a manufacturer of aluminum windows, was issued a sales tax license on October 4, 1963. Its record of payment of sales tax due indicates no trouble was encountered until December, 1965, at which time the firm ceased operations, leaving unpaid its sales tax for the month of December, 1965, in the amount of \$3,603.68.

The Department issued a demand under Section 50(6) of the Excise Tax Act against a deposit held by a contractor under the terms of a contract entered into prior to the cessation of operations, resulting in the receipt of \$3,243.00.

A demand under Section 50(9 and 10) of the Excise Tax Act, made on the firm's bank and negotiations with the former principals of the subject firm have resulted in a further \$1,991.35 being received and credited to the account.

In view of the facts that no evidence of intention to defraud the Department has been noted and that the former principals have cooperated in reducing the arrears to the extent of their present capabilities, it is felt that remission of the balance of arrears, i.e., sales tax of \$3,369.33 and penalty of \$805.48 is equitable and such is recommended.

Gerard Felchat,  
Scott Junction, P.Q.

\$170.16 Tax

\$359.46 Penalty

This small manufacturer of sash and doors was unaware of his liability as a manufacturer, which arose as a result of the budget resolution of June 1963. Because of this, he had not made provision for the retroactive audit assessment of \$1,451.23, covering the period June 14, 1963, to December 31, 1965, which included the period prior to issuance of a sales tax license.

The tax account was reduced by a series of monthly payments to a balance of \$1,170.16 between June 15, 1966, and November 15, 1966. In December 1966, the licensee offered payment of \$1,200.00 in settlement of the outstanding balance of \$1,478.60, including statutory penalty. In view of the marginal nature of the business and the poor financial condition of the licensee, the offer was tentatively accepted and the \$1,000.00 has now been taken to account.

Since the licensee was unaware of his sales tax liability until the initial audit was conducted and he has kept up tax payments since, it is considered equitable that the outstanding tax and penalty be remitted.

the Minister of Transport, representing:

That it is necessary to enlarge the two acre  
light station site at North Ballenas Island, British

parcels being no longer required for public purposes;

That giving consideration to the reconveyance of  
the aforesaid parcels of land, the purchase price of the

Canada Dry Ltd.,  
Toronto, Ontario.

\$13,121.86 Tax

\$3,965.22 Penalty

Canada Dry Ltd., sells a specially-prepared gingerale to Dominion Stores, at a negotiated price and bearing Domino labels purchased from Dominion Stores. Dispute arose as to whether such sales could properly be classed as sales to ordinary retailers and thus enjoy a discount from sale price for tax purposes as provided in a Departmental circular. The Department has held that such sales do not qualify and a retroactive assessment on the point in the amount of \$26,243.71 was established.

The circumstances are such that it is not certain that the Department's position could be successfully maintained although the taxpayer has accepted the Department's ruling for the future since the additional tax will be recovered from the customer. As regards the retroactive assessment, the firm paid 50% of \$26,243.71 and requests remission of the remainder of tax and penalty \$13,121.86 and \$3,965.22 respectively.

Remission is considered to be in the public interest.

Emile Jolette Ltee.,  
Lorrainville, P.Q.

\$762.34 Tax

\$1,093.65 Penalty

This case has reference to sales tax on the manufacture and sale of lumber during 1963. Based on an estimate of conditions and practices in the lumber and related industries, it seemed equitable to take into consideration that some taxpayers who are essentially retailers or wholesalers could, in attempting to give complete service to their customers, be classed by the Department as manufacturers for purposes of the Excise Tax Act. Because of this, discounts of 20% or 36% depending on the circumstances of sale, were authorized. This authority remained in effect until May 1, 1964. The cancellation was made public by a circular issued during April, 1964, and given wide circulation. However, the terminology did not have uniform application throughout the industry, with the result that some firms, not recognizing their classification as manufacturers, continued to allow the aforementioned discounts with a resultant underpayment of tax to the Department.

The Department recognized that hardship was caused through this misunderstanding. A circular letter was issued during July, 1964, in an attempt to clarify the situation. In general, the letter had the desired effect. However, differences in methods of operations of building materials businesses caused the misunderstanding to persist in some instances.

The Department has endeavoured to examine each case where underpayment of tax has occurred because of misuse of the discounts. While several cases have been referred to the Department of Justice for legal proceedings, this case justifies partial remission, as financial hardship could be caused by insistence on payment in full. Furthermore, it could be established that the taxpayer was misinformed and had done everything possible to establish his true liability.

Sun Publishing Co. Ltd.,  
Edmonton, Alberta.

\$9,586.83 Tax

\$2,879.81 Penalty

While this firm has been in a state of insolvency for several years, official bankruptcy was not put into effect because of the efforts of local creditors to encourage continuation of the business. About a year ago, a committee of creditors assumed control and, during the ensuing months, endeavoured unsuccessfully, to operate at a profit. Application of sales tax to the product of this company has been disputed but the Department maintained that tax applied to advertising material produced. At this time, the firm owes sales tax of \$14,586.83 and accumulated penalties of \$2,879.81.

If bankruptcy were completed, no dividend would be paid on this Department's claim for sales tax nor that for income tax. Interested creditors in further attempt to recover their equities in the company, have proposed payment of the income tax claim and a compromise settlement of the sales tax claim.

The interested creditors have or will invest an additional amount of approximately \$20,000.00 of which \$5,633.87 is being tendered taxation division and \$5,000.00 is offered in full settlement of the sales tax claim.

It would be in the interest of the revenue that the proposal be approved and the remainder of tax and penalty remitted.

## Criteria for Determining Eligibility for Duty Remission

The Machinery and Equipment Advisory Board will be guided by the following criteria when advising the Minister of Industry which goods, hereinafter referred to as machinery, are, in its judgment, eligible for duty remission:

- (1) that the machinery on which remission is being sought is not available from production in Canada;
- (2) remission of duty is in the public interest.

These criteria are to be understood as follows:

### Availability

Machinery is to be deemed available in Canada if at least one manufacturer has proven capability to manufacture machinery which, insofar as its range of physical qualities, operational characteristics and efficiency are concerned, is reasonably equivalent to the machinery for which relief of duty is being sought.

Proven capability may be deemed as existing in Canada if:

- (a) the full range of technical and physical capabilities necessary for production of the machinery for which remission is sought exists within the normal operational framework of at least one manufacturer; and
- (b) such facilities have in fact produced machinery which, in the judgment of the Board, has demonstrated a production competence reasonably equivalent to that required to produce the machinery for which remission is sought.

### Public Interest

The criterion of public interest should be regarded, in its broadest sense, in relation to encouraging the development of efficient Canadian industry.

It is assumed that, in general, most importations of machinery contribute to the maintenance, improvement, expansion or assistance of efficient industrial activity in Canada. Normally, therefore, remission of duty should be regarded as being in the public interest in cases where such machinery is not available from production in Canada since such remission will enable users of machinery to acquire it at prices which encourage general economic competitiveness because of reduced capital costs. There may be instances, however, where the Board finds that the policy or practices of an applicant for remission are not consistent with the development of efficient Canadian industry. In those instances, the Board may advise the Minister that remission is not in the public interest.

PRIVY COUNCIL

Certified to be a true copy of a Minute of a Meeting of the Committee  
of the Privy Council, approved by His Excellency the Governor  
General on the 14th December, 1967.

The Committee of the Privy Council have had  
before them a report dated 6th December, 1967, from  
the Minister of Transport, representing:

That in connection with the relocation of the  
Department of Transport's range lights at Grondines,  
Province of Quebec, an Option has been negotiated with  
Lomer Goudreau in the amount of \$1,000 covering a 20'  
wide right-of-way servitude on foot and by vehicle to-  
gether with the right to erect an electric pole line over  
part of Lot 206, Parish of Grondines, County of Portneuf,  
Province of Quebec, containing approximately 2.275 arpents,  
as shown outlined yellow on Plan M-3348 dated August 18,  
1967, on file in the Real Estate Branch of the Department  
of Transport;

That Mr. Goudreau, in granting the Department of  
Transport its rights over his property stipulated that the  
former front light site and access thereto containing 2.6  
arpents, more or less, being part of Lot 206, Parish of  
Grondines, County of Portneuf, Province of Quebec, as
